

**RD 2074 Comments Dated 1/13/14 From George Hartmann**

Comment: Please add EBMUD Pipeline to the Critical Infrastructure section

Comment: Please include McDonald Island flooding in 1982 and Mildred Island flooding in 1983 in the flood events timetable.

**RD 404 Comments Dated 2/4/14 from Dante Nomellini Jr.**

Comment: The total levee mileage is approximately 4.75 miles, with approximately 4.1 miles being project levees and the remaining approximately .65 miles non-project levees.

Comment: The total acreage within the District is smaller than yours. I've used 2,130 acres (based on the KSN, Inc. Engineers report for the 2007 Prop 218 assessment proceeding).

Comment: The slurry wall was expanded to approximately 1,600 feet and was much less than 2 million, closer to 1 million.

Comment: The annual assessment brings in about five hundred thousand (500k), not 600k.
