

MEETING NOTES

Project Name:	<u>LSJ/DS RFMP</u>	Date:	<u>6/27/13 1p – 3p</u>
Meeting Subject:	<u>RD 828 & 1614 Small Group Meeting</u>	Project No.:	<u></u>
Location:	<u>SJAFCA Conference Room 166</u>	Page:	<u>1</u>
Notes by:	<u>Jesse Patchett</u>		

Attendees: Sign-in sheet attached _____

Purpose:

The purpose of this meeting was to introduce the stakeholders to the RFMP and to get information on local-level flood control challenges, needs, and opportunities.

Discussion:

Introductions were made by attendees, followed by a brief presentation by Jesse Patchett (PBI) on the RFMP.

Following the presentation, open discussion began. Toward the end of the meeting, Ron Baldwin with PBI was introduced as the Emergency Response lead for the RFMP. Ron distributed an ER handout, and received information from stakeholders on who to follow up with to get information on flood ER needs.

Some key findings of the individual Reclamation Districts (RD's) is included below:

RD 828

RD 828 maintains the non-project levee along Smith Canal, but does not maintain the non-project levee across from the Port of Stockton (this levee is not currently maintained). This RD does not have a 5-yr plan. Assessments are TBD.

RD 1614

RD 1614 has a project levee along the Calaveras River upstream of Ranier Ave (the segment below is under review). This segment is maintained by the SJCFCWCD. RD 1614 has an annual revenue of about \$560K (\$430K from assessments, \$130K from property taxes). \$100-\$150K is spent annually on rock. There are no records of seepage in RD 1614. RD 1614 has a 5-yr plan. RD 1614 is pursuing 100-yr flood protection with Smith Gate.

Projects include: Smith Gate, Wisconsin PS, Alert System, Flood Gauge on Cal. River, Mormon Bypass, rock on smith canal (only about 50-60% complete). Additionally, RD 1614 is trying to get easements along Smith Canal (currently only prescriptive). Other projects being considered and implemented include restoration of the Calaveras River by the University of the Pacific.

Action Items:

Consultant Team:

- PBI to follow up with ER contacts
- PBI to prepare meeting minutes
- PBI to incorporate project needs/challenges into RFMP document

Stakeholders:

- RD's to work with their engineers (if applicable) to send existing information & project lists to PBI
- Track in-kind labor and expenses and provide to SJAFCA

Sign-In Sheet for RFMP Small group Meeting #10, RD 828 - Weber Tract, and RD 1614 - Smith Tract
